MDW Group Inc

Capability Statement

MDW Group, Inc. is Women's Owned and Minority Owned company with more than 10 years of experience and great customer service that has always characterized us.

Our IoT, M2M, Smart Lighting and Tracking solutions are made jointly with companies with which we have reached a solid commercial relationship that guarantees quality of our service.

We also provide a variety of wireless hardware and connected data solutions in accordance with the requirements of each client.

At MDW Group we believe that each customer is unique, as well as each one of their needs, so each implementation is analyzed in detail, seeking together with our clients the most efficient and profitable solution in every step of the project. It doesn't matter if you are looking for the right hardware for your applications or if you need help to identify the best smart solution for your projects. MDW Group stands by its clients from beginning to end, to support them on every step of the project. Our goal is to provide different options that fit a real budget complying with the requirements and objectives of our customers.
